## Belt pulley, 18-tooth MXL, 5mm bore

**£6.95**

Hover over image to zoom

## Product Information

A high-quality belt pulley for MXL belt (0.08 inch pitch, or 2.032 mm) up to 6.35 mm (0.25 inch) wide, made in USA. The pulley has a 5 mm diameter bore, suitable for most NEMA14 and NEMA17 stepper motors. It is the same type of pulley used in the eShapeOko and ShapeOko 1 kits, so it's ideal for a dual-motor dual Y drive upgrade for a ShapeOko CNC milling machine. It has a single **M3 grub screw with a 1.5 mm hex socket**.

Material: glass-filled polycarbonate, aluminium alloy, steel.

Part number: **EM-BP5 (eShapeOko)**, MSK01-09 (ShapeOko).

**Product Code:** SU010
